

MARKETING VIDEO FOR PS

Marketing Cut |

Marcie Braswell (Opening/Vision):

Regions Philanthropic Solutions is driven by a vision of empowering the organizations & individuals who do good in our communities. By leveraging our depth of experience in charitable giving strategies, nonprofit administration, and investment leadership, we are committed to helping our clients extend their charitable missions and expand their impact.

Ty Smith (Opportunity):

For decades, Regions Wealth Management has been a trusted advisor for clients who have a purpose and passion for using their resources to support good work across our communities. Philanthropic Solutions enables us to provide strategic guidance and administrative solutions to our clients – whether that is a family foundation extending grants, an individual seeking to make a charitable impact through their estate planning, or a nonprofit actively engaged in the community.

Ty Smith:

Our dedicated team of Philanthropic Solutions Advisors helps clients through the dynamics of stewarding their resources through strategic investment management and tailored advice and guidance. That, in turn, can deepen clients' charitable missions and strengthen their impact. For individuals and families that may include determining which charitable giving options align with their goals and desire to leave a strong legacy.

Marcie Braswell (Closing):

The work of nonprofit organizations, charitable foundations, and the individuals, families and companies who support them never stops. They continually pour into missions and causes that make our communities strong. Through our Philanthropic Solutions group, Regions delivers guidance, insights and solutions in ways that continue to impact people and communities for generations.
